Your franchise disclosure document requires that all of your franchisees have insurance coverage. When they don't have the coverage they need, it puts them at risk of litigation - and it puts you at risk too.

So what if there were an easy way to track and manage your franchisees' insurance compliance with 100% effectiveness, and fully protect your business?

Now there is, with ***EZ@CERTMGMT.com***.

At EZ CERT, we'll help you monitor the insurance coverages for every one of your locations, and compile comprehensive reports to help you effectively track compliance, whenever you need it.

Our team monitors your locations for potential coverage errors, and works ahead of the calendar to ensure that each location knows when it's time to renew.

What does that mean for your business? It means better, proactive compliance at the hands of dedicated insurance experts - which will save you a lot of time and expense.

Everyone has to deal with insurance. It's a part of doing business. When you don't track your franchisees' insurance, you can't be surprised when their problem...becomes your problem. So avoid the risk, and protect yourself - and your franchise. Contact EZ CERT, and learn more about our insurance tracking and management services today.
